HOW TO USE ENGAGEMENT PODS

In order to join these engagement pods you need to **sign up to AiGrow for free** and **use AiGrow's post scheduler** in order to reap the benefits of the engagement pods – don't worry, it's easy to use!

[Sign Up to AiGrow!](#)

As soon as you schedule your post, automatically users within your engagement pods will like and comment on your post! - It's really that simple.

Once you sign-up and are signed in, you can click any of the engagement pod links in blue (ex. [Art and Photo's](#)) within this document and join instantly.

Now you are all set for automated Instagram growth!

*** NOTE ***

You can join as many engagement groups you'd like but try to keep engagement as authentic to your page as possible. If you only have **1000 followers** but are receiving **5000 likes** per post then Instagram can red flag your page.

Use engagement pods tactically for maximum and consistent results!

CONCLUSION

There you have it! 100 engagement pods that will take your Instagram account to the next level.

Again, make sure you ensure your engagement is as authentic to your page as possible to achieve maximum results!

You can use AiGrow's growth feature to gain real followers by targeting any hashtags, locations, influencer accounts, and more!

Below is an account on the platform that grew from 0 followers to almost 13000 followers within a year using the AiGrow growth platform!

You can target prospective customers and followers using hashtags that they use, locations that they are in, and influencer accounts they are following. You can select many at once, so don't be shy
